Something about me:

I am originally born in Macedonia, and I moved to Malta in 2018 to study Performing Arts full-time. I am currently studying in MCAST Mosta where I'm going to get my master's degree. I started off by being a musician with the passion for writing songs and producing music then I got introduced to acting from a young age where I've dedicated my life to the industry. I have a twin sister and a very big family. My goal for the future is to make a name for myself in the performing arts industry and do music and act abroad. I am an athletic person who likes to workout and keep my body in shape. I like open spaces where I can explore and enjoy a walk on the beach. Being a big extrovert has helped me make a lot of friends with whom I can have fun with and share memories. I like reading books in my free time as well as playing basketball. I have a big obsession with the Performing Arts industry where I have many idols I look up to. I am a very organized person who is always trying to be productive and do my best for the best result. Acting for me is something that makes me very happy and something I can talk about and do for the rest of my life; I enjoy being on stage and inspiring people.
